NEWS/INFORMATIONAL/REQUESTS:

-Updated and approval of the FY 25 Budget – Mr. Lockman stated, “The Community Corrections Agencies lobbied to get more money for operations because a couple of years ago we received almost 1 million dollars for personnel (both JUV and Adult). We were able to reclass staff and to upgrade the positions in both JUV and Adult to make the pay more equal to a State Parole, officer, Court services officer and other probation officers across the State. The extra money this year was geared toward operations, and we were awarded a total of \$304,722.56 - \$95,901.64 was geared toward personnel and \$208,820.92 was obligated to operations. As a part of the process Kansas requires Community Corrections to have the board approve putting the extra money into the grant. It is good for us because it gives us some room for the personnel and the operations side. “ Chair Burton then asked if there was a motion to accept the FY 25 Budget. Assist Chair DA Mitchell made the motion and Captain Brown second the motion. All approved 6/9 (three were not in attendance).

- FY 24 Year-End Outcome Report – FSA Lockamy provided the board with the FY 24 Year-End Outcome Report. He reminded the board this report provides a over view of the goals and objectives that the department worked on during FY 24 and the outcome of the goals. FY 24 we had two goals:

1. First - To achieve a success rate of 75% or higher, or improve last year's success rate by 3%. When we reported we were about 80% success rate. Our objectives were to create a mechanism to measure staff engaging in natural community and case management. This is part of the 8 principles of evidence-based practices. Engaging in natural community help try to identify the pro social support in the community and help that probationer improve on pro social behaviors (attending treatment, transportation). As the officer we help identify the person that needs assistance and then refer them to the resources. As supervisors we look at the case files and review the file. The supervisor looks to see how officers identified the probationer that needs assistance and to see if the officer has identified the probationer and has provide the support and that it is recorded in our data base. Also, – To assure our polices are in 100% compliance with KDOC. FY 24 we had three that needed updated. We have updated one, and by February 2025 the other two will be updated when KDOC conducts the review of our department.
2. Second – FY24 develop and sustain staff skills through coaching and application of evidence base practices. We purchased a brief case series from the Carrie Group. This is a Cog Base program that provides the staff with tools to assist with cognitive base training for the probationer. We use Carrie Guides and other tools. Quarterly we train staff in evidence-based practices and make sure staff are on board with the evidence-based practices. Staff also get training in Modeling of pro social behaviors.

Chairman Burton asked if anyone had any questions. Then she asked if there was a motion to accept. Assist Chairman DA Mitchell made a motion and Christine Swenson 2nd the motion. Chairman Burton asked if all were in favor. 6/9 (3 not attendance). FY 24 Year-End Outcome report was approved.
